ABOVE ARE SAMPLE TATTOO SHEET SIZES FOR OUR STANDARD TEMPORARY TATTOOS. USE 2" X 2" SIZE FOR MOST "QUICK-SHIP" STOCK DESIGN PRICING. CALL FOR OTHER CUSTOM SIZES, VOLUME PRICING AND TATTOOS WITH "SPECIAL EFFECTS".

BASIC COSTS: Piece price, possible over run or under run, handling charge and freight charges (see ordering information).

PRINTING METHOD:

CUSTOM TEMPORARY TATTOOS ARE PRINTED IN 4-COLOR PROCESS. This will allow your artwork to include all the conventional colors on the PMS chart; these colors closely match PMS colors with our exclusive manufacturing method and regular process screens but are NOT AN EXACT MATCH due to the special safe, non-toxic, F.D.A. certified inks we use in our production.

BACK LABEL COPY:

A one (1) color (black) imprint on back of Tattoo is supplied at NO CHARGE, including the required directions and ingredients plus your copyright information and any other copy, logo or coupon that you require.

LAB TESTING:

Independent lab testing for small parts, use and abuse, eye and skin irritation, oral toxicity, heavy metals and flammability are available upon request for our Standard Temporary Tattoos. Material Safety Data Sheets for all ingredients are available upon request.

F.D.A. REQUIREMENTS:

Current F.D.A. regulations and copies of our F.D.A. certification for our Standard Temporary Tattoos are available upon request.

CUSTOM QUOTATIONS:

Please call us for almost any size, quantity or Tattoos with "Special Effects" that are not on the above Price List. Almost any size Tattoo sheet can be produced. When asking for your quotation please indicate "graphic image" size or "finished cut sheet" size as at least 1/8" space is required between each Tattoo image and between Tattoo images and the edge of the sheet. Prices do not include any bleed. Indicate total quantity and how many Tattoo sheet versions are required. PRICES ARE PER TATTOO SHEET VERSION. MUST BE ORDERED IN INCREMENTS OF 5,000 PIECES PER VERSION ON ORDERS ABOVE 5,000 PIECES.

5TH COLOR OF WHITE INK:

NO CHARGE for white ink. White areas will print as clear unless the 5th color of white ink is requested and indicated in artwork.

SPECIAL INKS:

Only non-toxic inks containing pigments that are certified by the F.D.A. for use in cosmetics are used in our Tattoos per current F.D.&C. requirements. **THESE INKS MAY APPEAR MORE SUBTLE AND INCONSISTENT IN COLOR THAN CONVENTIONAL PRINTING INKS.**
